SUMMARY | Business Intelligence Data Analyst, Report Developer & Report Data Engineer

Highly adaptable, technically savvy, solutions oriented, and communicative collaborator with 15+ years of professional experience and 8 years of experience collecting and curating reporting data using advanced Oracle SQL (experience with Microsoft SQL, DB2, and PostgreSQL as well) and Alteryx. 8 years of experience collecting requirements, change requests, and delivering reporting projects using Tableau and SSRS (experience with Power BI as well.) Extensive experience creating complex calculated fields and parameters to support the various reporting goals. 20+ years of experience with the Microsoft Office Suite. Adept at quickly learning and adapting to new technologies and applications. Experience reporting on data for departments across the organization, from customer experience, email, web, sales, call center, to fulfillment and global operations teams. Experience in report modernization, Hyperion to Tableau, rewriting source SQL and redesigning and publishing new Tableau reports as well as experience in new report and data source development.

PROFESSIONAL DEVELOPMENT

AI-Powered Business and Data Analytics Specialist program | Python PCEP Certification; Python packages: Pandas, NumPy, Matplotlib, Seaborn, Streamlit, Ollama, Llama3, OpenAI; REST APIs; Generative AI; crewai

PROFESSIONAL EXPERIENCE

Grand Circle Corporation, Boston, MA

Sr. Business Intelligence Engineer | Sep. 2015 – Dec. 2023 (8Y)

Recruited by the Business Intelligence team leader to join the team as a Senior Business Intelligence Developer. Responsible for becoming the subject matter expert for survey data from source to target; and responsible for creating the data sources and Tableau and SSRS reports over this data. Grew into an engineer role by creating more complex SQL, creating proofs of concepts for the data warehouse team for new tables, dimensions, measures as well as with creating tables using Alteryx and creating Oracle views.

- Improved data visibility for stakeholders by 35%, by developing and maintaining Tableau and SSRS reports for survey, sales, Workforce management of the Contact Center, email (marketing), web, etc.
- Reduced development time by 50% and minimized errors in annual reports, by streamlining the creation of annual survey and sales reports.
- Created Alteryx workflows with business process heavily embedded in order to support the reporting of metrics and delivery of incentive payments.

Help Desk Manager | Jan. 2013 – Sep. 2015

Offered the position to manage the Help Desk team after the Dir. of IS Operations position was eliminated. Managed the day-to-day operations of the Help Desk team.

- Managed and met SLA adherence to ticket resolution.
- Created and managed root resolution projects.
- Budget tracking and contract renewal management.
- Asset management, and managed new or replacement equipment projects, as well as OS upgrades.

Director of IS Operations | Jun. 2010 – Dec. 2012

Promoted to Director of IS Operations by the SVP, Information Services. Managed cross-team budget, contracts, KPI tracking.

- Developed a budget management system and integrated processes with A/P and Contract Management.
- Created a process for monitoring and managing IS contract renewals and new contract reviews.
- Collected and reported out on IS teams KPIs

IS Business Analyst/Project Manager | Apr. 2009 – Jun. 2010

Re-organized into a new team of BAs/PMs from a role of Lotus Notes Development to work on cross-team, cross-platform projects.

- Worked with business stakeholders to collect business requirements and establish project success criteria.
- Collaborated with cross-team IS team members on projects i.e. Lotus Notes integration with iSeries.
- QA and delivery of projects.

TECHNICAL SKILLS

BI Skills | Tableau, Alteryx, SSRS, Data Source Development (SQL and UI), Qualtrics **AI Tools & Skills** | Jupyter Lab, Streamlit, Python, Chat GPT, Copilot, Ollama, Llama3, VS Code, Pandas, NumPy, Matplotlib, Seaborn, Docker **DB Tools & Skills** | Oracle SQL, PostgreSQL, SQL Server, DB2 **Familiar with** | iCEDQ, Active Batch, Informatica, git, GitHub, Azure DevOps, Power BI, Azure Data Factory **Concepts** | Dimensional/Relational Data Models, ETL/ELT, Agile Project Model, Waterfall Project Model **Project Delivery** | Requirements Gathering, Report Development & Deployment, Troubleshooting technical and data issues, Business Owner Delivery **Office Skills** | Microsoft Office Suite (Excel, Word, PowerPoint, OneNote)

EDUCATION & CREDENTIALS

CERTIFICATION

PYTHON INSTITUTE | Certified Entry-Level Python Programmer (PCEP)

GITHUB | GitHub Foundations

EDUCATION

MASSASOIT COMMUNITY COLLEGE | Computer Science Transfer – Data Science (Sophomore - Restart Spring 2025)

Network Technology Academy Institute (NTAi) | AI-Powered Business and Data Analytics Specialist program
- Coursework: Data Analytics, Python Programming, Machine Learning, LLMs (In Progress)

UNIVERSITY OF CALIFORNIA, Irvine Division of Continuing Education | Specialized Studies Program, Business Intelligence and Data Warehousing (dimensional modeling)

HIGH SCHOOL DIPLOMA | Whitman-Hanson High School, Whitman, MA
